To whom it may concern

I would like to take this opportunity to convey my pleasure in dealing with Jared and everyone associated with the Hillcrest Laminate & Molding team located in Cloverdale, BC

We decided to install laminate on our entire main floor. After spending months shopping for laminate floors, we went to my brothers house who had recently used Hillcrest Laminate in their home, we were so impressed with both the laminate and craftsmanship of the install, we decided to call. They had many options as far as colours and styles of laminate all at fair, competitive prices.

The scheduling of the floor installation for the entire project was very precise and well executed. The installers arrived on time daily and always ensured our house was left clean and as organized as possible at the end of each day.

Our floors look fabulous and I am happy to recommend Hillcrest Laminate & Molding to anyone looking to have their floors done.

We are so please we are now going to have our molding done by them.

Sincerely,

C. Bayluk
