**Re: Hillcrest Laminate & Molding**

I recently purchased a new townhouse in the Morgan Heights area of South Surrey. I opted for a hardwood flooring upgrade on the main level of my home and after taking possession I immediately began exploring options for replacing carpeting on three staircases and in one hallway. I contacted three local flooring companies in order to obtain estimates, one of which was Hillcrest Laminate & Molding.

Jared from Hillcrest Laminate & Molding attended my home and presented several samples of laminate flooring in various colors, textures and finishes. I was amazed at how similar Jared's high-quality laminate samples were to actual hardwood. Jared's quote was the most competitive of the three and he committed to completing the work in five business days. Recognizing the complexity of installing flooring on staircases, I was pleased with the timeframe and hired Jared on the spot.

Jared's installers began work the following week and finished in slightly over four days. Jared was able to color match the laminate flooring he installed to the existing hardwood on my main floor, resulting in a virtually seamless transition between my main level and the two staircases it abuts. It is nearly impossible to distinguish between the laminate and hardwood.

The Hillcrest Laminate & Molding installer's craftsmanship is exceptional, as is the quality of the flooring they installed. The finished product is outstanding. The notable differences between my builder-installed hardwood and the laminate installed by Hillcrest Laminate & Molding are that the laminate is much easier to clean, infinitely more durable and costs a fraction of the price.

I have recommended Hillcrest Laminate & Molding to several friends and neighbors and will continue to do so, without hesitation, as I have no doubt that Jared can be relied upon to exceed the expectations of his customers.

Sincerely,

Owen Court
